

ASSESSMENT

Begin with an assessment to determine if your online presence is in alignment with your objectives and, importantly, the public's perception. Only by knowing your starting point can you create a map to get you where you want to be. Based on your goals, we will build on your strengths and prioritize your efforts with an actionable plan and an online strategy guaranteed to bring you real return on your investment.

The assessment consists of the following:

1. A worksheet to assist you in defining your objectives and conducting your online inventory
2. An assessment of your current digital situation:
 - Thorough online examination
 - Analysis of public perception
3. In-depth consultation either in person or via Skype:
 - Review of social media goals and objectives
 - Evaluation of strengths and weaknesses
 - Highlighting areas where goals and objectives do not align with current situation
 - Determining a strategy and action plan based on priorities
 - Allocation of resources and commitment to a publication schedule
4. Consolidated results of your assessment in a brief prioritized report
